SPIRITUALIST'S VIEW OF THE STATE OF MATRIMONY.

Lecture by R. H. Kneeshaw Upon the Sacredness of Marriage Re-Intions.

R. H. Kneeshaw lectured before the Spiritual society at Bryan hall yesterday. his subject being "Marriage." Among other things Mr. Kneeshaw said that the cornerstone of human happiness ties in marman to the right woman, the eternal marnal union and consequent thought fruition of the man and woman who because of their spiritual growth are best fitted for each other, and all other forms of union are utterly vain. He said that the refining element in human nature is femmasculine. Woman sees clearer and fur-

ther than man, and can best tell how things on the cruder phase of existence should Man's stronger force can best do that which woman's spiritual eye sees, about be done. Woman's spiritual nature is always open in advance of man's for this reason. Women are always the first to apprehend new spiritual revolution and that is why women are the most fait ful followers of Christ. The intuitive capacity women has become proverbial. that abe "jumps at sions" because of the capacity of forc-telling results in business, of warning men whom to trust and whom not to trust. The teminine force or mind is a pecessary and inevitable part of the mas-

culine mind or force, and where these two forces understand their true relationship forces universiand their there arises powers to each, that one relatively weak imiginations may hardly realize. This fitness and adjustness towards each other constitute their unity. Woman through her finer ath in every instance of human and man presents a more suitable intel-lect to put those ideas and truths so re-ceived into execution. All leading ideas have been brought into the world by woman, behind every great undertaking or entarprise, there has been invariably some unknown woman who has inspired. or men prominent in such under Madame Roland inspired the irondists to demand a constitutional govmind of Napoleon with the local which led to his triumphs; Martha Washington shared the toils and privations of Valler Porge; Isabella of Spain prompted and assisted Christopher Columbus to ambark his memorable voyage of discovery and innumerable wives, mothers and six-

ters with their advice and encouragement have been the unfailing incentive to every lofty thought, to each noble deed that the world has known, for behind every cessini man, in every grade and phase of life, in every successful business, or undertaking, there has been somewhere, seen or unseen, a woman his inspirer. Woman is not the "weaker" but the finer essel: she is to man what the delicately steers the ship. Being the finer instrument from the cruder forces with which man deals, just as the mariner protects his sompass, or the engineer his throdolite. man's duty to afford this protection when man makes a drudge out of wo an, he is preventing himself from redegrade woman is analogous to the ariner destroying the compass card or uniting its magnetic needle. If man with send my spo-timpressions, attrittimes or suggestions, as aread quick acting to his life or method of business, he will

and choke up the fount of her inspiration. He thus injuries her intellect and his own. on the He also injures her health and his own. to lower and courser levels of degraded for the truly and spiritually married are for the Iguly and spiritually "one whole," same lands parts and forces making "one whole," same lands which God, or the infinite spirit of God, George C and St which God, or the infinite spirit all so-called J. C. Hutch son as joined together; but all so-called marriages" are not so in really, but are really merely matches and those matches are ton often dipped with brimstone and as such are made to "go off." All such matches, or marriages de convenance, are and disguise the facts as may, the horrors arising from such flagrant wrongs are such as "ery out to high heaven" and blight and degrade our oft vaunted civillection; and for such meaningless forms and senseless cere-monies there can be but one remedy, i.e., for the law to remedy in every possible manner the evil which the law has assistd to produce. But no man nor man-made aw may acparate the truly married, for hey are to each other as healers, teachors, and always lovers, and the stage of he next year's love, the next month's ove the next week's love and tomorrow's love will be one more exalted, more bliss-ful, more intence than the love of today, because their union is of that order sug-gested by the teacher of old, "It is an a saver of life unto life," and not of "death unto death," as any ontward union must be which is not symiled by both. he which is not sanctined by both love and aspiration to be better, purer and more powerful tomorrow than today. And

## As to Public School Lands.

Yeakdin, Texas, May 8.—Some time since I saw so advertisement giving a description of some 20,000,000 acres of acbool lands located in Texas for sale on forty years' time. tract included about fifty-five or lifty-six counties that investors, homeseekers and pour people can't touch with a forty-foot Resume of Transactions in Realty because the stock men and cattle syndicates for the Week. have lobbled it through the legislature and have lobbled it through the legislature and have lobbled it through the legislature and have it their own way. If I understand the law none of the counties west of the line mentioned to the advertisement can an actual anneaseker buy any land encept auch as the advertisement of the law mays the water sections can be leased for five beauty and the dry sections for the years at a centra per acre, and ninety days before the lease of the big bugs expire all they have to do is to notify the State or commissioner of the land offing that they want it for five or ten years longer at 3 centra per area, longer at 3 centra per area, and they have the refusal over anyone else. The Stateball just as well goed it to them and be done with it as far as homeseckers are concerned. that j.et as well deed it to them and be done
that j.et as well deed it to them and be done
with it as far as homeseckers are concerned.
There is plenty of land for every man it
Texas to have a good home and at it and it is
per acre on forty years time at I per cent
but just as long as the cattlemen want to
you may us well hold your peace. Wit
will soters elset such men to make laws
for them: Our governor ought to call the
attention of our loginistors to this and the
voters ought to make swell man running for
offic, pledge himself to give the homesecke
and farmers the refusal of the public demair school lands over any stockman. They
rry out that it is in the dry belt and tha
it will not make anything else but grains
land. This is all bosh. We know that the
most of this land will grow most anything
risated where it is irrigated and will grow to
these southern counting fruit, regetables of
unything cire one wants to grow. Arterial

these southern counties fruit, veg

# IT WAS Kidney Disease

A COMPLETE CURE 1,400 AFTER A TOUR, WITHOUT BENEFIT, AMONG THE LEADING LIGHTS OF THE MEDICAL PROFESSION.

The case of FRANCES W. GRESHAM. 617 and St., N. W., Washington, D. C., Secretary and Treasurer the . igher League of Educational Society, Washington.

"I firmly believe that I owe my life to Warner's Safe Cure For two years I suffered
with kidney trouble and could find no relief
anywhere. I spen bundreds or dollars on
ouclors and medicines, some would give tem
permy relief and others noise whatever.

desided to try Warney's Safe cure as a hat
resort and wish I had followed the advice of
triends sooner. It was the only things that
helped me and in less than four months I
had made a new woman out of me. I am entrely well and give all the oraine to Warney's
Safe Cure."

water, I am told, can be had at from 250 to feet, and will flow 600 gallons per manuf I asked our "floater" if this was not the can He said it was, and he said more, that see real families had actually been thrown of their horses after they had improved then as they bought under the old law and stitle last legislature had taken it in hand an put it to 31 instead of 52. The cattleme leased the land from the Stats and about seventy-five to 150 families had to leave the homes.

Now, who was this land set spart for " An

homes.

Now, who was this land set apart for? And why his the stockman the preference over the poor man who needs a home and ought to have it. I am holding my breath and waiting to see who will take the side of the weak and down trudden farmer and wage earner for cheap homes and against them being gobbied up by combines and corporations. South Texas is the garden spot of the world. I came here weighing 145 pounds, and afflicted with rehumation. My doctor bit at this place has not been \$19 and I weigh 190 pounds.

Andrew Knox Jones.

The Best Democratic Policy. To the Editor of The Post. Midland, Texas, May 1 -Of course all 60 democrats are practically agreed that the Chicago platform will be reaffirmed a Kannas City, but as to questions more recent there is more diversity of opinion as
to the best course to pursue. In our judgment the question of imperialism is by
far the more important, as it involves a
change in the lendamental principles of
our government. As far back as February,
1835, we saw the tendency of the times
and in order to auticipate our embarking
upon this untried and of experiment. In
the very day that the news came of the tion to annex that country to the United States, we introduced a resolution in the Twenty-third legislature as follows.

Whereas, The people of that country (Hawaii) are seeking annexation to the United States, and
Whereas, President Harrison, in order to carrieve the failing fortunes of the republican parry, is seeking to further their desires in this direction;

therefore be it

Resolved by the house of representatives of far Twenty third legislature.

That it is the sense of this body that the territory of the United States is sufficiently large at present for all practical purposes and that in our applicant the united States in its present to the United States in its present revolutionary condition would be extremely hazardous and unwise, (Journal 23 Legislature, p. 215.)

This resolution was undergranding tabled, the only vote for it being the vote or its author. We believed then and still believe that this was the proper democratic doctrine, in which opinion we are now

doctrine, in which opinion we are not joined by most of the leading ilemograt of the country, and the stone that th builders rejected is seen to attract after tion in the democratic elifice. The log truths announced in the resolution, ar that the republican party was seeking new ussues, second that the United States was large enough for all practical purposes, and, third, that we had cause to view with 250 slarm the annexation of any other termi-tory and that its annexation was extreme-tory and that its annexation was extreme-to measurement of the annexation of Hawaii was but the beginning of the republican colonial policy, and the inch which the demograts gave the republicans in Hawaii has been extended to an oil in the Philipping.

the Philippines. As the matter now stands we are anti-expansionlate on every proposition before the American people. We believe in the United States of America, not the United States of the Philippines-Ports-Rico-de-

The arguments for expansion appeal to the selfish instinct in man's nature and his greed for gold. The anti-expansionist and anti-imperialists think more of min than of money, and believe that if the government succeeds in elevating her ow people to a higher intellectual and m plane greater good can be accomplis in this connection the language of 1 William Jones becomes appropriate

"What constitutes a State?" Not high-raised battlements or labored mound, Thich wall or meated gate:

Not cities proud with spires and turrets crowned.

Not bays and broad arm ports.

Where laughing at the atorm rich navies

Not starred and spangled courts. Where low-browed baseness wafts pet fume to pride. Men-high-minded men-With powers as far above dull brute endued

In forest brake or den As beasts excel cold rocks and bramble

Men who their duties know Bur know their rights and knowing dare maintain; Prevent the long aimed blow.

And crush the tyrant while they rend

The chain.
These constitute a State." it was substantially on these principles that Mr. Balley wor his late brilliant victors (after his repaire at Galveston) and we think that the sober thought of the American people would sustain the National democracy on a platform of the same kind.
